

PRODUCT AND COMPANY IDENTIFICATION:

LaRanTea Tree Dry Itchy Shampoo

**LaRan Products
P O Box #55515
Riverside, CA 92517**

**Active Ingredients: Ammonium Lauryl Sulfate
Menthol Crystals**

Formula #: F1013

CAS No: 2235-54-3/9004-65-3

Boiling Point: 212°F Initial

Viscosity: No data available

Water Solubility: Complete

pH: Not applicable

Specific Gravity: 1.04@ 25°C

Flammability: No data available

Melting Point: N/A

Vapor Density: N/A

Evaporation Rate: N/A

Flash Point: >200°F)

Freezing Point: No data available

Physical State: Liquid

Appearance and Odor: Green / Characteristic of menthol, camphorous

- HAZARDS: Danger! May be fatal if swallowed. Harmful if inhaled. Causes irritation to skin, eyes and respiratory tract. May cause allergic reaction. Keep container tightly closed when not in use. Keep out of reach of children.**

EYE Contact: Irritant due to its phenolic character; can cause reddening and tearing.

SKIN Contact: Mild Irritant but may cause pain or inflammation on sensitive areas of the skin.

INGESTION: TOXIC: If ingested, may cause nausea, vomiting, pain, drowsiness, convulsions, coma or death.

INHALATION: Breathing of vapors can irritate mucous membranes/respiratory system.

- First Aid Measures:**

EYE: Immediately flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Get medical attention if irritation persists.

SKIN: Immediately flush skin with plenty of soap and water. Remove contaminated clothing and shoes. Wash clothing before reuse. Get medical attention if irritation persists.

INGESTION: Rinse mouth and seek medical attention immediately. Do NOT induce vomiting. Loosen tight clothing such as collars, ties, belts, etc. If the victim is not breathing, perform mouth to mouth resuscitation.

INHALATION: Move person to fresh air; if not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE:

Persons with pre-existing skin disorders, eye problems or impaired respiratory function may be more susceptible to the effects of this substance.

- Stability and Reactivity:** Stable. Avoid excessive heat. Avoid strong oxidizers. Hazardous decomposition or byproducts – forms CO and/or CO₂ upon burning. Hazardous polymerization will not occur.
